

Step 5

Now we add a short line extending outward from the bottom right side of the gumdrop. Then from the bottom middle of the gumdrop, make an "s" curve that is stretched out long.

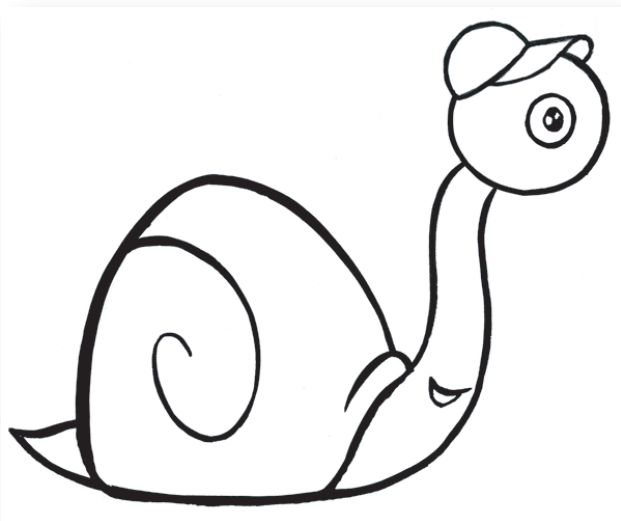

Step 6

Add the details on the eye. The pupil and iris are just round shapes, one inside the other. Then draw a smile on Blort's neck. The smile is in the shape of a "leaf".

Step 7

Erase any extra lines and you're ready to color.

Step 8

Doo doo DOO! Blort's here to save the day!
